EXECUTIVE SUMMARY

Aspiring Junior Software Engineer with a strong foundation in Java and a passion for building efficient software solutions. A strong communicator, adaptable team player, and problem solver with the ability to collaborate effectively and contribute to impactful software projects in dynamic environments.

EDUCATION

B.E, Computer and Communication Engineering

2023 – Present

*V.S.B Engineering College, Karur. CGPA - 7.75**

High Secondary

2021 – 2023

Sowdambikaa Matric Higher Secondary School, Trichy.

Percentage - 72%

PROJECTS

Legal Aid Matching Platform :

04/2025 – 05/2025

- Developed a legal aid platform with secure authentication, role-based access control, intelligent case matching, and real-time communication connecting citizens with verified pro bono lawyers and NGOs.

Bus Tracking Intelligent :

09/2025 – Present

- Developed a real-time bus tracking application featuring live GPS tracking, ETA prediction, seat availability, and real-time synchronization between user and conductor modules.

INTERNSHIP

Java Full Stack Development Intern :

11/2025 – 01/2026

Infosys Springboard (Virtual Internship)

- Completed an internship at Infosys, gaining hands-on experience in enterprise-level application development, software optimization, and modern technologies while collaborating with team members to deliver real-world project solutions and strengthen teamwork skills.

Artificial Intelligence with Python :

04/2025 – 05/2025

Microsoft (via Edunet Foundation)

- Completed a 4-week internship in Artificial Intelligence, gaining hands-on experience in machine learning, neural networks, AI applications, and data science through real-world projects, case studies, problem-solving, and analytical tasks.

TECH SKILLS

Languages & Backend: Java, Spring Boot

Frontend: HTML, CSS, JavaScript

Database: SQL

Tools & Practices: Git, GitHub, Postman, RESTful APIs, JWT/OAuth2

CERTIFICATIONS

NPTEL - Earned certificate in Java Programming by securing 60%

Infosys - Completed Java and Python course and earned a certificate.

AWS - Completed Machine Learning and Cloud Computing concepts and earned certificate.

Nasscom - Completed Generative AI Fluency course and earned certificate.

PRESENTATION & PARTICIPATION

- Hosted my department's Inter-College Level Symposium.
- Presented the project at **Infosys, Bangalore**, during the "Celebrating Tech" event.

PUBLICATIONS

Published the research paper "**An Optimized Slot Booking System for Emergency EV Charging Stations With User-to-User Communication**" by Kabilan J at the International Conference on Intelligent Technologies for Sustainable Electric and Communications Systems conducted by PSG Institute of Technology and Applied Research, Coimbatore, India, 2025.
